I am	I'm trying to	But	Because	Which makes me feel
An online shopper who wants a hassle-free and reliable platform to browse, shop, and track orders easily.	Browse products, search by category, add items to my cart, place orders, and manage my profile securely and efficiently.	Existing platforms often have poor navigation, limited filters, unclear product details, or complicated checkout and order tracking.	These issues waste time, create frustration, and make the overall shopping and order management experience inefficient.	Frustrated, inconvenienced, and less confident about completing purchases online.
